

🔒 The Vault - Secure Your Crypto with Confidence

The Vault is an innovative web application designed to secure cryptocurrencies while making them grow. It combines advanced security mechanisms with decentralized investment solutions through Chainlink Oracle, offering users a double guarantee: security and yield.

★ Key Features

🔒 Secure Your Cryptos

Lock cryptocurrencies for periods of 1 day, 1 week, 1 month, or 1 year, preventing any transactions during that time.

💼 Support for Multiple Cryptocurrencies

Easily select various cryptos like AVAX, RLUSD, ETH, BTC, ...

Project Goal

- 1
- 2

Protection

Protect digital assets against hacking risks and impulsive decisions.

Passive Returns

Generate passive returns through Chainlink Oracle integration, ensuring safe and transparent investments.
